

NEOMMS 2018
NORTH EASTERN ONTARIO MINES AND MINERALS SYMPOSIUM
Northern Prospectors Association, Kirkland Lake, Ontario
“Today’s Technology – Tomorrow’s Discoveries”

MERC / METAL EARTH SHORT COURSE SCHEDULE – THURSDAY OCTOBER 18, 2018

Time		Speaker	Affiliation	Topic/Title
9:00-9:10	1	John Ayer	MERC	Introduction
9:10-9:40	2	Saeid Cheraghi	MERC	Preliminary results of seismic imaging along Swayze and Chibougamau transects, better understanding of shallow and deep subsurface geological architecture
9:40-10:10	3	Graham Hill	MERC	The use of electromagnetics to understand crustal architecture: Methods, Pitfalls and Solutions
10:10-10:30	COFFEE BREAK			
10:30-11:00	4	Esmaeil Eshaghi	MERC	Geophysical potential field data applied to better understand crustal scale controls on metal endowment in the Abitibi
11:00-11:30	5	Xiaohui Zhou	MERC	Stratigraphic and Structural Architecture of the Southern Abitibi & Pontiac Subprovince along the Malartic Transect
11:30-12:00	6	Stephane Perrouty	MERC	Integrated Multi-Parameter Footprint of the Canadian Malartic Gold Deposit
12:00-1:00	LUNCH			
1:00-1:30	7	Taus Jorgensen	MERC	The Metal Earth Rouyn-Noranda transect: overview and new findings
1:30-2:00	8	Kate Rubingh	MERC	Structural and stratigraphic framework of the Larder Lake area, insights from new mapping, geochronology, and geophysics
2:00-2:30	9	Ben Frieman	MERC	Understanding heterogeneously distributed structure associated with the Larder Lake-Cadillac deformation zone as a guide for exploration
2:30-2:50	COFFEE BREAK			
2:50-3:20	10	Rasmus Haugaard	MERC	Lithological and Stratigraphic constraints through the Swaze Area, Abitibi Greenstone Belt
3:20-3:50	11	Gyorgyi Tuba	MERC	What fluid inclusions do and do not tell us about mineralization: A whodunit of fluids in orogenic gold systems
3:50-4:20	12	Zsuzsanna Toth	MERC	The geology of the Hardrock orogenic gold deposits with highlights from the geological evolution of the Beardmore-Geraldton greenstone belt
4:20-4:30	13	Ross Sherlock	MERC	Summary and Conclusions
