

DeLoye Patented Mining Claims

Teck-Lebel Townships (Kirana Mine Property): North-east corner of Teck Township: (1686-87-88-89; 1751) & Northwest corner of Lebel Township: (1619; 1749-50). 8 mining claims with mining and surface rights. This package includes the original Kirana Mine property. The company had announced plans to deepen the shaft to the 1000-1500 foot level just at the outbreak of World War Two.

Teck Township: Mining claims 6799 and 6283: These claims are contiguous (south) of the Kirkland Lake Gold-Queenston South Mine Complex joint venture claims.

South West Teck Township: Mining claim 6929 Parcel 854, CST. Includes the mining Licence of Occupation under Blanche River HR746.

South Central Garrison Township: (DeLoye Deep) Claim Numbers 28683; 28889-90; 32557-58; 38847-48-49; 39255-56-57; 40088-89; (13 patented claims with mining and surface rights) These claims are contiguous to the former producer Buffonta (Murphy open pit) and just south of Northern Gold's ValGold option on the Destor-Porcupine Fault.

Gauthier Township: Parcel 8407 Claim Numbers: (mining claims 25308-10-11; 25933-34; 25945-46-47) 8 patented claims with mining and surface rights. These claims lie just south and are contiguous to Queenston's Anoki South property and the Upper Canada Mine and the more recent McBean open pit mine. Highway 66 goes through the middle of them.

Morrisette Township (Nettie Lake): (6323-24-25; & 43677)
Mining rights to all these patented claims plus surface rights to 6325. Some of the earliest workings in the Kirkland Lake camp occurred on claim 6325.

I have extensive reports of exploration work done in the past on these claims.

Should you be interested in any of the above claim groups please feel free to contact me.
