

Croxall – “Timmins West” Property
172 unit Au Property in Active "TIMMINS WEST" Area

This large block is located east of Lake Shore Gold's 1.3 million ounce Holmer Au Deposit and its newly announced Thunder Creek Au discovery and West Timmins Mining's 400,000+ ounce Au deposits.

The western part of the property includes the Destor Porcupine Fault Zone and historically strategic ground to the north of the fault. It contains a number of Au occurrences and several undrilled I.P. targets.

The eastern part of the property contains numerous ultramafic zones along the recently interpreted western extension of the horizon hosting Golden Chalice's recent Ni discovery in Langmuir Township.

Southwest OGDEN Twp.....53 units
NW and North PRICE Twp.....111 units
Northeast THORNELOE Twp.....8 units
